I got sunshine in the rain
We all got love and bills to pay
I can weather anything, as long as I've got you
I always come back to you

This is Home
This is right where I belong
This is every little piece of every thing that makes me strong
This is Home
This is you and me growing old
In a cabin on a hill your hand's the one I want to hold
This is Home
Oh yea
This is Home
